Hey Chief Sharon:

Your message mentions a meeting on the 7th, but I believe that meeting was rescheduled to the 13th

correct?

Subject: FW: Planning for 2016 field and lab support by OEME

Hi Team,

Good news. We have another reason to brainstorm. It is “time to start thinking about this coming summer and what field/lab support you may want OEME's Ecology Monitoring Team and Biology and Chemistry Labs to provide.” Katrina Kipp is soliciting OEP and OES Water Managers for any assistance requests – **due by February 12th**. Perhaps Shauna may want aluminum monitoring of potable water facilities and Eric may want to continue with Asian clam studies in the Merrimack River (?) – just to name a few. Please let me know if you have any need for field and/or lab support. Otherwise we can discuss options during our up-coming meeting on the 7th. Attached, please find 1) a list of OEME’s capabilities from last year and 2) a summary table showing the status of the 2015 projects.

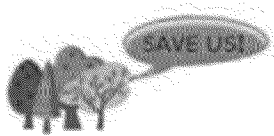

Thank you and Happy Holidays!
